Opportunity Summary

The seller-financing thesis depends on price, down payment and complete payment terms; no financing values are inferred. The property has 71% alignment with the configured Investment Profile; this is a profile-fit measure, not a deal-quality score.

- Current base cost: \$148,900.
- Recent-sales market estimate: \$113,967 (\$91,841 – \$133,646); 5 recent-sales valuation comps.

Key Insights & Next Steps

Positive Signals

- Current base cost: \$148,900.
- The \$35,000 rehabilitation assumption equals approximately \$32.93/sqft.
- Mercado cadastrado
- Preço registrado

What's Missing

- Resolve down payment to unlock financed principal.
- Resolve interest rate to unlock payment schedule.
- Resolve financing term to unlock payment schedule.

Recommended Next Steps

- Resolve down payment to unlock financed principal.
- Resolve interest rate to unlock payment schedule.
- Resolve financing term to unlock payment schedule.
- Resolve down payment

Key Considerations

- The provider estimate of \$124,000 is a market reference, not a DealSifter ARV.
- The 0% cap rate is reported and cannot be treated as calculated without NOI.

Maxxis executive insight

The property has 71% alignment with the configured Investment Profile; this is a profile-fit measure, not a deal-quality score. Mercado cadastrado Preço registrado For seller financing, confirm down payment, interest rate, amortization, term and balloon before evaluating the payment structure. Priority limitation: Resolve down payment to unlock financed principal.
