Analysis notes

Yellow: SOLD. Red: FOR SALE. Purple: complementary. Up to 5 main references per group and 3 complementary SOLDs, ordered by available similarity. Listings do not prove sales or enter ARV. FOR SALE identifies a listing price, including historical/inactive listings; it does not mean the offer is active today.
SOLD: execution not evidenced. Returned: —; normalized: —; structural candidates: —; ARV eligible: —. No traceable SOLD search result; this does not establish that no sales exist.

Estimated Monthly Rent: I have not queried a market rent estimate for this property yet. Previous execution not recorded; this does not establish missing provider data.

Financial readiness

NOI and returns require qualified income and complete operating costs. Estimated rent is not current income. Confirm the lease and income actually received to distinguish current performance from a market scenario.

This report supports decisions using available evidence. It is not an appraisal, financial advice, or a recommendation to buy or sell. GIS records do not replace a survey; declared zoning does not establish legal approval.

Recorded sales: supporting evidence

Available sale references; these do not establish a validated ARV range. Condition and comparison criteria still require verification.

Estimated Monthly Rent

Limitation and impact: This report has no usable estimate; this does not establish that market data is absent.
Next verification: Check market rent through the authorized workflow and confirm the lease separately.

Condition and rehabilitation

Limitation and impact: Reported rehabilitation: $48,000. The amount does not establish scope or condition.
Next verification: Review inspection, scope and quote to test the strategy.
