Uncertainties limiting the decision

- The declared type differs from the external record; another property type cannot support this valuation.
- Current market evidence does not support a valuation conclusion. Asking price is not a valuation.

Prioritized next checks

- Review the property classification against the record source before using the external estimate.
- Obtain recorded comparable land sales with area, date and location to evaluate price per acre.

Publisher notes and description

- Synthetic parcel conflict control; zoning R2 is publisher-declared, not legal approval.

This report supports decisions using available evidence. It is not an appraisal, financial advice, or a recommendation to buy or sell. GIS records do not replace a survey; declared zoning does not establish legal approval.
