Location

center point, AL 35215

33.6528268892837, -86.664736200637

Street map unavailable; location is shown from stored property data.

Notes

opportunity to subdivide in 2 lots for new constructions, after this the land will gain the equity in high %.

Needs verification: stored evidence conflicts with the narrative.

Comparative Market Analysis

Land subject

741 Gable dr, center point, AL, 35215
Asking price: $19,000.00 · 0.547612 acres · 23,854 sqft
$34,696.07/acre · $0.80/sqft

Acquisition — sold land

0 qualified sales
Insufficient qualifying recorded land sales in cache. Selection requires land type, recency, proximity and parcel similarity.
Current asking: $34,696.07/acre; $0.80/sqft
Unlock evidence: 2+ qualified land sales.

Exit — residential sales

Product: 1 SFR
Building area per unit: Not supplied
0 qualified sales
Exit selection pending: proposed building area per unit is missing.
Exit reference is not ARV or a construction quote.

Evidence readiness / limitations

Land sales: 0 — Insufficient
Exit sales: 0 — Proposed area not supplied
Parcel dimension: Resolved; source conflict retained
Zoning: R2 — User provided
Provider / land: Fresh cache
Provider / exit: Unavailable in cache
External SFR conflict retained; LAND analysis. AVM does not support acquisition.

Resolved dimension / source traceability

Selected source: rentcast — Verified record
Resolved parcel: 23,854 sqft = 0.547612 acres
Deterministic conversion: 1 acre = 43,560 sqft; derived unit marked calculated.
Conflicting evidence retained: 1.14 acres (PROPERTY_APP_VALUE); 23,854 sqft (rentcast).
Difference exceeds the 2% tolerance. Source precedence resolves the pair; no stored property data is overwritten.

How to interpret these references

Land acquisition, construction cost and exit value are separate analyses. No cost or future value is assumed to fill evidence gaps.

Land costs and development

New construction — average	Reference range	Land asking	Proposed product
$145.50/sqft	119–172 USD/sqft	$19,000.00	1 SFR

New construction — internal 2026 benchmark

State: Alabama
Low / average / high:
$119.00 / $145.50 / $172.00 per sqft
Source: internal estimated benchmark — 2026. Not a contractor quote.

Development assumptions

Current subject: Land
Zoning: R2 — User provided
Intent: New construction
Proposed product: 1 SFR
Area per unit: Not supplied

Cost calculation / known basis

Construction — low / central / high: Pending: proposed building area
Known development basis: $19,000.00
Excludes construction and unknown costs.

LAND

Acquisition: $19,000.00 — Known

Key Insights & Verification

Positive Signals

- Current base cost: $0.
- The $0 rehabilitation assumption equals approximately $0.00/sqft.

What's Missing

- Resolve recorded land-sale evidence to unlock market context.
- A defensible ARV cannot be calculated with the evidence currently available.
- Resolve allowed use to unlock development feasibility.
- Resolve ownership evidence to unlock title review.

Key Considerations

- The provider estimate of $0 is a market reference, not a DealSifter ARV.
- The 0% cap rate is reported and cannot be treated as calculated without NOI.

Recommended Next Steps

- Resolve recorded land-sale evidence to unlock market context.
- Resolve allowed use to unlock development feasibility.
- Resolve ownership evidence to unlock title review.

Maxxis executive insight

Land; product 1 SFR; zoning R2. Feasibility and remaining costs unverified.
